

High Power Laser Illuminator

Key Features

- **High power output 40W (equivalent to 27,000 lumens)**
- **Beam Divergence: 20°, 50°, 100°**
- **Center wavelength: 808nm**
- **Optional wavelength: 976nm, 1064nm**
- **Narrow wavelength spread (10nm)**
- **Uses highly reliable Vertical Cavity Surface Emitting Laser technology**
- **Reliable- field operable, IP-65 enclosure**
- **Operating temperature: -20 to 40°C**
- **Passive cooling – natural convection**
- **Wavelength drift with temperature: 0.06nm/°C**
- **Dimensions: 7.5 x 6.5 x 12 in**
- **Input power: 200W**
